Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

The policy on decisions regarding the content of remuneration, etc. for individual Directors and Executive Officers, determined by the Compensation Committee, is as follows.

The main duty of each Director and Executive Officer of the Company is to minimize the burden on the people by enhancing corporate value based on a strong commitment to achieving stable supply of electric power beyond the world's highest level for ensuring safety and under competitive conditions, while fulfilling the Company's responsibility for the Fukushima Daiichi Nuclear Power Station accident.

In order to achieve this, the basic policies for the determination of remuneration are securing outstanding human resources capable of leading business operations and management reform to achieve both "responsibility and competitiveness," clarifying responsibilities and outcomes and increasing incentives for improved performance and increase in the stock value.

The remuneration system for Directors and that of Executive Officers are different based on the different duties of the Directors, who are in charge of supervising corporate management, and the Executive Officers, who are in charge of executing business operations. Officers who concurrently serve as Director and Executive Officer receive only the remuneration paid to Executive Officers.

(1) Remuneration paid to Directors

The remuneration paid to Directors comprises only basic remuneration.

<Basic remuneration>

The amount of basic remuneration paid to each Director is determined taking into consideration whether he/she is full time or part time, the committee to which he/she belongs and his/her job description.

The remuneration paid to Executive Officers comprises basic remuneration and productivity-linked remuneration.

<Basic remuneration>

The amount of basic remuneration paid to each Executive Officer is determined based on his/her specific rank, whether he/she holds the right to represent the Company and his/her job description.

<Productivity-linked remuneration>

The amount of productivity-linked remuneration is determined according to results of the Company and personal performance.

(3) Level of remuneration to be paid

When determining the level of remuneration to be paid to Directors and Executive Officers, the Company takes into consideration its management environment, the remuneration levels of other companies and the current salaries of employees, etc., with the aim of setting remuneration at levels commensurate with their abilities and responsibilities to be required as Directors and Executive Officers.
