## **Notice concerning Extraordinary Income and Loss**

As to the earnings results for consolidated first half (April 1 through September 30, 2015) of the fiscal year ending March 31, 2016 released today, Tokyo Electric Power Company Incorporated (TEPCO, TSE: 9501) hereby makes a notice concerning extraordinary income and loss. The details are as follows. All the numbers below are on consolidated basis, unless otherwise noted.

### **1. Extraordinary Income**

#### **Grants-in-aid from Nuclear Damage Compensation and Decommissioning Facilitation Corporation**

As TEPCO requested change of the amount of financial assistance under the article of Nuclear Damage Compensation and Decommissioning Facilitation Corporation Act (Act No. 94 of August 10, 2011), the company has recognized Grants-in-aid from Nuclear Damage Compensation and Decommissioning Facilitation Corporation of 426.7 billion yen as an extraordinary income. (The same amount had been recorded by the end of the first quarter of fiscal 2015.)

### **2. Extraordinary Loss**

#### **Expenses for nuclear damage compensations**

Based on the Governmental compensation guidelines such as the “Interim Guidelines for the Scope of Nuclear Damage due to the Accident at Fukushima Daiichi and Daini Power Stations” adopted by the Dispute Reconciliation Committee for Nuclear Damage Compensation, TEPCO has updated the estimate of its nuclear damage compensations caused by the accident at Fukushima Nuclear Power Stations as 7,134.9 billion yen so far. By the end of the first half, TEPCO has recognized the expenses for nuclear damage compensations of 6,143.7 billion yen, deducting the amount of the Governmental indemnity paid to the company according to the Act on Contracts for Indemnification of Nuclear Damage (Act No. 148 of June 17, 1961) of 188.9 billion yen and grants-in-aid corresponding to that of decontamination expenses of 802.3 billion yen from the estimate. Thus, 465.2 billion yen, the difference between the revised estimate and the fiscal 2014 estimate, was additionally recorded as the expenses for nuclear damage compensations by the end of the first half. (The amount of expenses for nuclear damage compensations was 405.6 billion yen by the end of the first quarter of fiscal 2015.)
