

## Correspondence table regarding the same day last year

“The same day last year” indicates the same day of the week of the same month and same week in a year ago, in principle.

\* As the Great East Japan Earthquake, which occurred March 11, 2011, has affected the usage of electricity, for the period from March 9th to March 31st, 2012, we substitute “the same day last year” with “the same day of the week of the same month and same week the year before last (2010)”, in principle.

\* Singularities are set different from the principle.
