

# International Advisory Team for Decommissioning of Fukushima Daiichi Nuclear Power Station

< Document 2 >  
January 11, 2013  
Tokyo Electric Power Company

As decommissioning of Fukushima Daiichi Nuclear Power Station involves technologies unknown by TEPCO and in Japan, experience-based overseas knowledge shall be leveraged in order to safely and efficiently implement the decommissioning plan in accordance with the “Intensive reform implementation action plan” (announced on November 7, 2012). To this end, preparation for establishing an international advisory team (IAT) is ongoing with the cooperation and advice of the government. We will request international organizations such as the International Atomic Energy Agency (IAEA) and the Organisation for Economic Co-operation and Development Nuclear Energy Agency (OECD-NEA), etc. to provide opportunities to share international knowledge, dispatch peer review mission (the request will be made through the government), etc.

[The schedule of the IAT]  
January 10: The first preparation meeting was held  
From April: Start full-scale operation

\* Dispatch of the advisory members (experts) from the U.S., UK, France, Russia, Ukraine, etc. is being discussed.
