

Overview of the Mega Solar Power Station Projects in the Coastal Area of Kawasaki City

1. Scheme

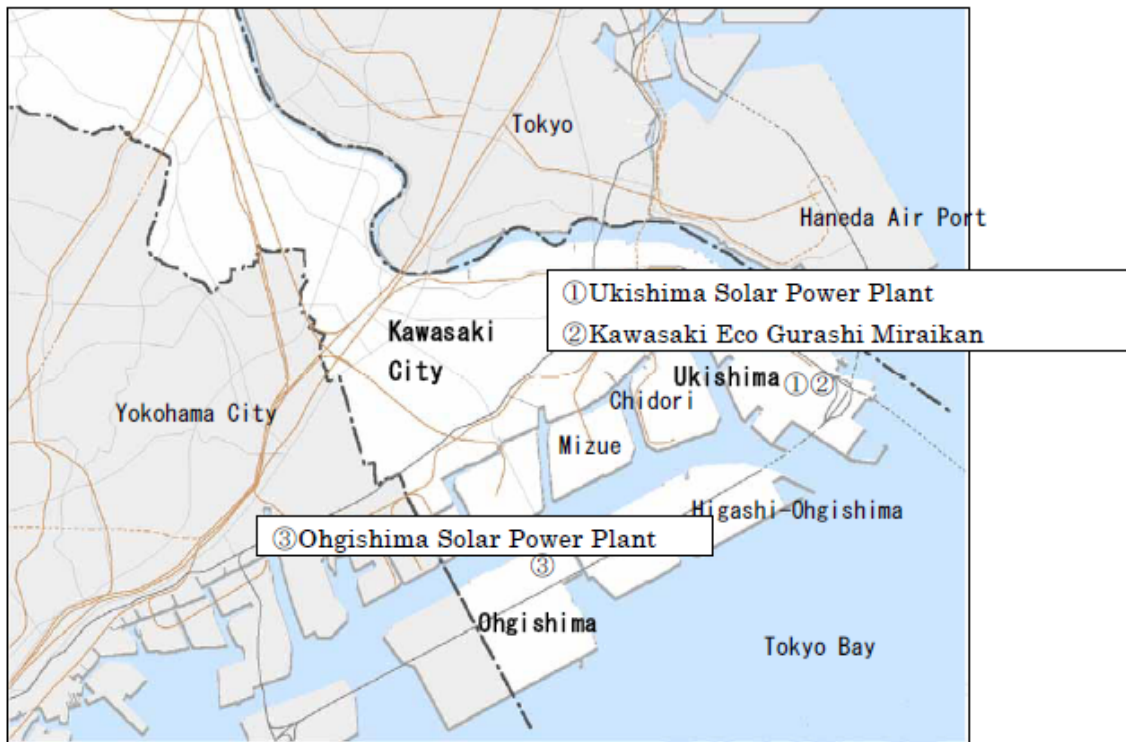

2. Outline of Solar Power Stations

Name	Ukishima Solar Power Station	Ohgishima Solar Power Station
Location	Ukishima Town, Kawasaki Ward, Kawasaki City, Kanagawa Prefecture	Ohgishima, Kawasaki Ward, Kawasaki City, Kanagawa Prefecture
Maximum output	7MW	13MW
Annual total generated power	Approx. 9,450MWh (Actual) Approx. 7,400MWh (Estimate)	Approx. 13,700MWh (Estimate)
CO2 emission reduction	Approx. 4,400 tons (Actual) Approx. 3,100 tons (Estimate)	Approx. 5,800 tons (Estimate)
Site area	Approx. 11 ha (Owned by Kawasaki City)	Approx. 23 ha (Owned by TEPCO)
Number of photovoltaic cells	Approx. 38,000	Approx. 64,000
Operational commencement	August 10, 2011	December 19, 2011

3. Outline of Kawasaki Eco Gurashi Miraikan

Administrator	Kawasaki City
Location	509-1 Ukishima Town, Kawasaki Ward, Kawasaki City, Kanagawa Prefecture (Located in Ukishima Treatment Center)
Opening day	August 6, 2011
Open hours	9:00 AM to 4:30 PM (Admission free) *Closed on Mondays and during year-end and new year's holidays (For more information, visit http://eco-miraikan.jp/)
Outline	Interactive learning facility with focus on global warming, renewable energy and resource cycling. Mega solar power station observation tour is held in the observatory area.
