"Results of these sampling points were previously announced (September 4: 2R-1, September 9: 11-1,11-3, test
drilling hole N3, N4, 1R-1 and 4T-1 (Cs, all $\beta$ ), September 10: 4T-1 (H-3), September 11 and 12: 1T-4 (sampled on September 11), 2T-1, 2T-2).

* Data announced this time are provided in a thick-frame. We have performed the resample at $1 \mathrm{~T}-4$. The other data obtained at 1T-4 on September 13 was announced today previously.
* "ND" indicates that the measurement result is below the detection limit, and the detection limit of each nuclide is provided in parentheses.
* "-" indicates that the measurement was out of range.
