

Nuclide analysis results of ocean soil

Reference

(Data summarized on November 17)

Place of Sampling	Around North Discharge Channel of 2F ( Around 3,4u Discharge Channel) ( approx. 10 km from 1F )				
Time of Sampling	2011/11/15 Sampling cancelled				
Detected Nuclides (Half-life)	Density of sample ( Bq/kg·moist soil)				
I-131 (about 8 days)	-				
Cs-134 (about 2 years)	-				
Cs-137 (about 30 years)	-				

Sampling cancelled due to bad weather
