

Fukushima Daiichi Nuclear Power Station: Plutonium analysis result in seawater

1. Sampling points: At north of Units 5 and 6 discharge channel of Fukushima Daiichi NPS
At south discharge channel of Fukushima Daiichi NPS
At 15km from the offshore of Fukushima Daiichi NPS
At 15km from the offshore of Fukushima Daini NPS
2. Analysis organization: Japan Chemical Analysis Center
3. Analysis results:

(mBq/L)

| Sampling points | Date of Sampling | Pu-238 | Pu-239, Pu-240 |
|-------------------------------------|------------------|--------|----------------|
| 1F north of U.5,6 discharge channel | 5/9 | N.D. | N.D. |
| 1F south discharge channel | | N.D. | N.D. |
| 1F 15km from the offshore | 5/9 | N.D. | N.D. |
| 2F 15km from the offshore | | N.D. | N.D. |
