\*1 Kanto Area: Tochigi Prefecture, Gunma Prefecture, Ibaraki Prefecture, Saitama Prefecture, Chiba Prefecture, Tokyo Metropolitan Area, Kanagawa Prefecture, Yamanashi Prefecture and Shizuoka Prefecture (east of Fujikawa)

\*2 Rate plans before the full liberalization of the electricity market (excluding optional agreements) such as Meter-Rate Lighting, Low-Voltage Electricity, etc.

- \*3 Rate plans after the full liberalization of the electricity market such as Standard Plan, Premium Plan, Smart Life Plan, Power Plan, etc., and optional agreements such as Denka Jozu
- \*4 A consumption tax and other costs are included in the prices.
- \*5 June 2024 rates (May 2024 consumption. However, this correlates to June 2024 consumption for high-voltage supply contracts for which meters are read on the first day of each month) include unit price discounts (low-voltage supply: 1.80 yen/kWh, high-voltage supply: 0.90 yen/kWh) as a nationwide measure for mitigating sharp fluctuations in electricity rates. These measures do not apply to extra high-voltage supply contracts. For further details, please refer to [the page on our website dedicated to this topic](#) (in Japanese only).
- \*6 For low-voltage supply and high-voltage supply, shows the difference between the unit prices after reflecting measures to mitigate sharp fluctuations.
- \*7 Existing rate plans such as Business power, Extra high-voltage power A, etc.
- \*8 If the contract expiration date is March 31, 2024 or thereafter, the rate will be applied from the subsequent calculation period.
- \*9 If the contract expiration date is April 1, 2024 or thereafter, the rate will be applied until the contract expires.
