

Fuel Cost Adjustments, etc. included in Electricity Rates for September 2026

July 30, 2026

TEPCO Energy Partner, Inc.

In response to today's announcement of the fuel prices from April 2026 to June 2026 (prices of crude oil, LNG, and coal according to trade statistics), the fuel cost adjustment unit prices for low-voltage supply customers included in the electricity rates for September 2026 have been determined as follows.

Please note that the fuel cost adjustment unit prices and the market price adjustment unit prices are calculated after discounting 3.50 yen/kWh and 1.80 yen/kWh for low-voltage and high-voltage supply, respectively, for August 2026 and October 2026, and 4.50 yen/kWh and 2.30 yen/kWh for low-voltage and high-voltage supply, respectively, for September 2026 as a nationwide measure to subsidize electricity/gas rates.

1. For low-voltage supply customers: Fuel cost adjustment unit prices (tax included)

Service Area	Contract Category		Fuel Cost Adjustment Unit Prices (per 1kWh)				
			September 2026		August 2026		Difference Between August 2026 and September 2026 ^{*5}
			Before reflecting measures to subsidize electricity/gas rates	After reflecting measures to subsidize electricity/gas rates	Before reflecting measures to subsidize electricity/gas rates	After reflecting measures to subsidize electricity/gas rates	
Kanto ^{*1}	Low-Voltage Supply	Contracts for which specified retail supply agreements apply ^{*2}	- 6.46 yen	- 10.96 yen ^{*4}	- 6.77 yen	- 10.27 yen ^{*4}	- 0.69 yen
		Contracts for which electricity supply/demand agreements [low-voltage] apply ^{*3}	- 6.46 yen	- 10.96 yen ^{*4}	- 6.77 yen	- 10.27 yen ^{*4}	- 0.69 yen

2. For high-voltage/extra high-voltage supply customers: Fuel cost adjustment unit prices and Market price adjustment unit prices

Fuel cost adjustment unit prices	When the measurement period, etc. starts on the first day of each month	To be announced on September 29, 2026
	When the measurement period, etc. does not start on the first day of each month	To be announced on August 28, 2026
Market price adjustment unit prices	When the measurement period, etc. starts on the first day of each month	To be announced on October 1, 2026
	When the measurement period, etc. does not start on the first day of each month	To be announced on September 1, 2026

<Reference 1> The change of the electricity rates on the low-voltage average model
(Comparison with the electricity rate for August 2026)

	September 2026		August 2026		Difference Between August 2026 and September 2026 ^{*8}
	Before reflecting measures to subsidize electricity/gas rates	After reflecting measures to subsidize electricity/gas rates	Before reflecting measures to subsidize electricity/gas rates	After reflecting measures to subsidize electricity/gas rates	
Electricity Rates ^{*6}	9,013 yen	7,843 yen ^{*7}	8,933 yen	8,023 yen ^{*7}	- 180 yen

<Reference 2> Fuel Prices

(1) Average fuel prices (the Trade Statistics of Japan)

From April 2026 to June 2026 (actual figures)	Average Crude Oil Price	112,839 yen/kl
	Average LNG Price	93,153 yen/ t
	Average Coal Price	22,185 yen/ t
	Average Fuel Price	50,800 yen/kl

(2) Changes in fuel prices^{*9}

	From April 2026 to June 2026 (applied to September 2026)				From March 2026 to May 2026 (applied to August 2026)
	Average	Apr. 2026	May 2026	Jun. 2026	
Crude Oil (\$/b)	112.8	101.9	114.6	117.2	86.7
LNG (\$/t)	585.8	558.3	625.8	576.8	579.3
Coal (\$/t)	139.5	131.3	142.0	145.3	131.7
Exchange rate (¥/\$)	159.0	159.3	158.2	159.7	158.0

- *1 Kanto Area: Tochigi Prefecture, Gunma Prefecture, Ibaraki Prefecture, Saitama Prefecture, Chiba Prefecture, Tokyo Metropolis, Kanagawa Prefecture, Yamanashi Prefecture and Shizuoka Prefecture (east of Fujikawa)
- *2 Rate plans before the full liberalization of the electricity market (excluding optional agreements) such as Meter-Rate Lighting, Low-Voltage Electricity, etc.
- *3 Rate plans after the full liberalization of the electricity market such as Standard Plan, Premium Plan, Smart Life Plan, Power Plan, etc., and optional agreements such as Denka Jozu
- *4 August 2026 rates (July 2026 consumption) include a unit price discount (low-voltage supply: 3.50 yen/kWh) as a nationwide measure for subsidizing electricity/gas rates. In addition, September 2026 rates (August 2026 consumption) include a unit price discount (low-voltage supply: 4.50 yen/kWh). For further details, please refer to [the page on our website dedicated to this topic](#) (in Japanese only).
- *5 Shows the difference between the unit prices after reflecting measures to subsidize electricity/gas rates.
- *6 The rates shown in the table are applicable to the case of 30A of meter-rate lighting B with electricity consumption of 260 kWh/month. They include the renewable energy power promotion surcharge (1,086 yen) and a consumption tax and other costs.
- *7 Includes an electricity consumption discount of 910 yen (260 kWh x 3.50 yen/kWh) for August 2026 as a nationwide measure for subsidizing electricity/gas rates. In addition, includes an electricity consumption discount of 1,170 yen (260 kWh x 4.50 yen/kWh) for September 2026.
- *8 Shows the difference between the electricity rates after reflecting measures to subsidize electricity/gas rates.
- *9 If fuel prices/market prices surge due to changes in the global energy situation or tight supply-demand conditions, etc., there is a possibility that the fuel cost adjustment prices/market price adjustment prices may increase significantly.
