

## Commencement of the fuel loading of Kashiwazaki-Kariwa Nuclear Power Station Unit 6

June 10, 2025

Tokyo Electric Power Company Holdings, Inc.

On June 10, Tokyo Electric Power Company Holdings, Inc. commenced insertion of control rod for fuel loading\* of Kashiwazaki-Kariwa Nuclear Power Station Unit 6 at 01:01 PM, and the first fuel assembly was loaded into the reactor at 01:50 PM.

If anything is noticed during the fuel loading, the work will be suspended to check each and every issue. We will continue to carefully load the reactor with fuel until the last fuel assembly has been loaded. An announcement will be made after all fuel loading has been completed.

\* Process of transporting fuel assemblies from the spent fuel pool to the reactor and loading the reactor with fuel. Kashiwazaki-Kariwa Nuclear Power Station Unit 6 will be loaded with a total of 872 fuel assemblies.
