

Announcement

Release of Report from the International Atomic Energy Agency's (IAEA)
Review of Safety Related Aspects of Handling ALPS Treated Water
(Fifth Review Mission after the Start of Discharge into the Sea)

May 1, 2026

Tokyo Electric Power Company Holdings, Inc.

On April 30, 2026, the International Atomic Energy Agency (IAEA) released its report from the review (Fifth review mission to Japan after the start of discharge) of safety related aspects of handling ALPS treated water at TEPCO's Fukushima Daiichi Nuclear Power Station.

This report presents the findings of the IAEA Task Force*¹ that conducted the review from December 15-19, 2025, based on relevant international safety standards. This was the fifth review conducted since the commencement of discharge in August 2023.

The report concludes that, as in the previous reports published by the IAEA, the Task Force did not identify anything that is inconsistent with the requirements in the relevant international safety standards regarding the discharge of ALPS treated water into the sea.

According to IAEA, the following schedule has been announced:

- The Task Force will continue to review the activities of TEPCO, NRA and the Government of Japan to assess whether they are consistent with the relevant international safety standards.
- The Task Force proposed that the next review mission taking place in the first half of 2026 focused on the Japan monitoring activities related to the discharge of ALPS treated water.

(Extracted from IAEA)

TEPCO will continue to cooperate with IAEA reviews conducted based on relevant international safety standards during the discharge of ALPS treated water into the sea. Through these reviews we shall do our utmost to ensure safety and convey the details of these reviews, etc., which based on scientific evidence in a highly transparent manner.

*1 The IAEA Task Force consists of the IAEA officials and international experts (from Argentina, Canada, China, France, the Marshall Islands, the Republic of Korea, Russia, the United Kingdom and Vietnam).
