

Overview of the participation in Thailand rooftop solar PPA project.

[About Constant Energy]

Constant Energy is a renewable energy generation and storage investment platform that invests in and manages high-quality power assets in selected countries. As a commercial solar panel developer and Independent Power Producer (IPP), it develops, designs, finances, builds, owns, and operates utility-scale and commercial rooftop solar photovoltaic power stations to lead the way in alternative energy resources and renewable energy. Regionally headquartered in Bangkok, Constant Energy operates primarily in Southeast Asia. It produces long-term green and reliable electricity for its clients, using renewable energy sources and green energy fuels, enabling them to reduce their energy bills and increase profitability and enterprise value while focusing on their core business activities.

<Business scheme>

<Overview of first project>
