Operation condition of water treatment facility	Cesium Adsorption Apparatus: Since 10:02 on July 17 Suspended 2nd Cesium Adsorption Apparatus (Sarry): Since 21:53 on July 30 Suspended Water Desalination Apparatus (reverse osmosis membrane): Intermittent operation depending on the water balance Water Desalination Apparatus (evaporative concentration): Intermittent operation depending on the water balance
Notes	* At 9:53 PM on July 30, an alarm went off indicating the suspension of a booster pump and the detection of leakage, and the second cesium adsorption apparatus (SARRY) was suspended. No leakage was found as a result of the site investigation.
