

## 1. Overview of PicTrée - Grid Grab: Capture the Current

- "PicTrée" is a "team battle game" where teams take photos of power assets, such as utility poles and manholes, and compete to see which team can take the most photos and cover the most distance.
- Players choose which team they want to belong to, "Amp," "Bolt," or "Watt," and play as a member of that team. In the game, players can earn points by "Checking In" on and "Capture" the power assets, such as utility poles, and then "Connect" the assets. The total score of each team determines the ranking of the three teams.
- Players can earn rewards based on their performance in the game, such as Amazon gift certificates and DEAPcoin (DEP), as well as the chance to earn team rewards based on team rankings at the end of fixed period of time referred to as a "season."
