

The Result of analysis for Pu in the ocean around Fukushima Daiichi

1. Place of sampling : The Unit 5 and 6 North Discharge Channel of Fukushima Daiichi
Around South Discharge Channel of Fukushima Daiichi
2. Analytical body : Japan Chemical Analysis Center (JCAC)
3. Sampling result:

(Unit: mBq/m³)

Place of sampling	Date of sampling	Pu-238	Pu-239,Pu-240
1F 5, 6 North Discharge Channel	11/14	N.D. [$<4.9 \times 10^{-1}$]	N.D. [$<4.9 \times 10^{-1}$]
1F South Discharge Channel		N.D. [$<5.0 \times 10^{-1}$]	N.D. [$<5.0 \times 10^{-1}$]

[] : Detection Limit

4. Evaluation:

There is no detection of Pu-238, Pu-239 and Pu-240 from this sampling
